

43” Slimline Pro Advertising Displays

b Premium displays that combine stunning tablet-like aesthetics with a robust protective enclosure and tempered glass face

Protective Sleek Enclosure

These deluxe displays are the ultimate solution for displaying your content in public spaces. As well as protecting the internal components, the robust aluminium surround and tempered edge-to-edge glass also deliver captivating tablet-like aesthetics for a truly high-end feel.

Free Flush-Fit Wall Mount

A super slim wall mount is included at no extra cost, enabling you to install your screen in either landscape or portrait orientation with a secure and aesthetically-pleasing flush fit to the wall.

- 24/7 Commercial Grade
- Integrated Android Media Player
- 450cd/m2 IPS Panel
- Giant Tablet Styling
- Lightweight Design
- Free Scheduling Software
- Multiple AV Inputs
- Landscape or Portrait Orientation
- Integrated Speakers
- 3 Year Commercial Warranty

Other Features

24/7 Commercial Grade

Designed for continuous use in public spaces, these displays utilise commercial grade LCD panels, LED backlights and internal components. This means they can run 24/7 for over 70,000 hours. To avoid tampering, they also have no external buttons or controls.

450cd/m² IPS Panel

Commercial grade IPS technology ensures incredible image quality and colour depth with no fall-off in colour accuracy, as well as achieving ultimate lifelike colour from an ultra-wide viewing angle in landscape or portrait orientation.

Toughened Safety Glass

Although the tempered glass face is incredibly tough, in the unlikely event of a breakage the specialised safety glass will shatter into small chunks rather than shards. Not only does this prevent injury, it also protects the LCD panel from damage.

Aluminium Surround

Thanks to their stunning surround, which is made of diamond-cut 6-series aluminium alloy and has a premium brushed finish, as well as their unique concave indent profile, these displays are truly distinguishable. Sculpting the surround from a single piece, rather than in segments, achieves a cleaner finish.

Integrated Android Media Player

The built-in Android media player allows you to easily update on-screen content via USB plug and play. Alternatively, upgrade your screen to be networked without needing any additional hardware to update via the internet. Third-party software can also be installed if required.

Lightweight Design

By using less and lighter materials, component weight is kept to a minimum. This compact design makes both installation and maintenance much more convenient.

Slender Frame

Featuring a slim frame with rounded corners, these displays achieve giant tablet styling while also minimising frame size to keep focus squarely on your content.

Multiple AV Inputs

By connecting to an external device via HDMI or VGA, such as a third-party PC or media player, these versatile displays can be effortlessly transformed into a commercial monitor with striking aesthetics.

Why Choose Our Commercial Display Solutions?

Lifetime
Technical
Support

From the moment you receive your product, throughout the duration of your warranty and even after your warranty has expired we are here to support you. If you require any assistance setting up or using your product, or have any problems at all, we can provide free technical support via telephone and email.

On-site Support
and
Maintenance*

If needed, we can provide an installation service for any of our products. We can also set up service-level agreements for larger projects that require maintenance contracts.

Extended
Warranty
*

All of our commercial display products come with a 3 year commercial warranty as standard but if you want to extend this you can upgrade this to cover a 5 year period at point of purchase.

Training

As well as providing free remote CMS training sessions and webinars we can also visit you to deliver bespoke training for our software and hardware*.

Advanced
Replacements†

Should your display suffer from any kind of hardware failure during the warranty period we will send you an advanced replacement and arrange for your old display to be collected, free of charge. This ensures no downtime where you are without a screen.

Custom Product
Testing &
Configuration

If you need us to test third party software or a website, or configure your screen in a particular way before it is dispatched (e.g. in a particular orientation or network mode), we can do so to make your life easier.

3D Rendering

Want to know how a particular screen will look once installed? Send us a photo of the location and we will create a 3D rendering of any screen in situ to help you to visualise how amazing it will look.

Logistics Support

We hold more stock in our UK warehouse than any other manufacturer so we can help you meet tight deadlines. For last minute orders we can also offer special express or morning delivery options*. We also carry out UK based quality control checks on every display before it leaves our warehouse.

Project Support

If you need to loan a sample unit to test we'd be more than happy to arrange this. We can also provide a rental service for temporary projects*.

Customisation*

Your display can be customised to suit your requirements by adding your logo or printed graphics or even tailoring the colour of a display. We can also carry out hardware modifications to existing products or manufacture bespoke solutions for special projects.

Extras*

As well as being able to provide accessories and add-ons, such as extra remote controls, NUC PCs and video wall controllers, we can also supply custom made flight cases which are great if a display needs to be moved safely from place to place.
